

Spring Rain Garden Tour

Saturday, April 29th 10 a.m.-2 p.m.

Locations: Miller Branch Library, Bethany Woods Neighborhood, and Turf Valley Overlook Neighborhood

Summary: The Spring Rain Garden Tour will allow members of the public to learn about stormwater management, see small-scale stormwater management practices like rain gardens and rain barrels in the field, and provide opportunities to talk with homeowners who have had these practices installed. This event will raise awareness for stormwater management and encourage attendees to get their own rain gardens and rain barrels.
